ANIKET KUMAR GUPTA

Aurora, IL | (779) 890-8638 | ng.aniket@gmail.com | https://www.linkedin.com/in/aniket-ku-gupta/

SUMMARY OF QUALIFICATIONS

- Strong foundation in aerospace engineering, manufacturing, and aviation sector.
- Hands-on experience in manufacturing engineering, composite materials, and simulation tools such as ANSYS and CATIA V5.
- Proven project management, teamwork, and problem-solving abilities through internships and projects.
- Areas of Expertise: CAD/CAM, Composites, Configuration & BOM, Simulation, Manufacturing and Materials, Aerodynamics, Operations, Supply Chain, and Digital Marketing.
- Excellent interpersonal and communication skills; capable of collaborating across functional teams.

EDUCATION

Master of Science in Aviation and Transportation Expected: May 2027
Lewis University, Romeoville, IL

Bachelor of Technology (B.Tech.) – Aerospace Engineering May 2025
Kalinga Institute of Industrial Technology, Bhubaneswar, India GPA: 9.18/10.0

Scholarship: Study in India Scholarship for full B.Tech. program

AVIATION INTERNSHIP

Manufacturing Engineering Intern May 2024 - June 2024
TATA Advanced Systems Limited - Bangalore, India

- Prepared BOM and PBOM, and handled configuration management for aircraft parts manufacturing.
- Cross-trained in composite material manufacturing, tooling, design, and non-destructive testing (NDT).
- Contributed to the manufacturing operations, automated inspection systems, and additive manufacturing.

PROJECTS

Design and Analysis of Thermal Barrier Coatings for Turbine Applications July 2024 - Dec 2024

- Focused on coating aerospace-grade materials to test sustainability at high temperatures
- Involved CAD design and materials characterization

CFD Analysis of Winglets at Different Angles Jan 2024 - Apr 2024

- Designed and simulated multiple winglet configurations in Solidworks and Ansys
- Analyzed lift-to-drag ratio to identify optimal aerodynamic design

Advanced Composite Materials Manufacturing for Aerospace and Comprehensive Approach to BOM and Configuration Management May 2024 - June 2024

- Prepared BOM for the Manufacturing of C295 aircraft using Composite Materials
- Worked as an Intern in Configuration Management to help with the Manufacturing Unit

HONORS AND AWARDS

- Published a paper on Computational Fluid Dynamics Study on the Performance of Aircraft Wings with Varying Winglet Angles, presented at IPDIMS (Intelligent Product Design and Intelligent Manufacturing System) Conference, Dec 2024
- Runner-up – ANSYS Multiphysics Simulation Challenge, March 2025

LANGUAGES AND COMPUTER/TECHNOLOGY SKILLS

- Fluent in English, Hindi, Nepali, Maithili
- Proficient in Software: CATIA V5, ANSYS, SOLIDWORKS, MS Office
- Proficient in Microsoft Word, PowerPoint, Excel, Outlook, and Project
